### Deployment failed

Deployment to resource group 'rg-kirits Shah2\_yahoo-ksi7r' failed. Additional details from the underlying API that might be helpful: At least one resource deployment operation failed. Please list deployment operations for details. Please see <https://aka.ms/DeployOperations> for usage details.

9 minutes ago

## Remote Desktop Connection

Remote Desktop can't connect to the remote computer for one of these reasons:

- 1) Remote access to the server is not enabled
- 2) The remote computer is turned off
- 3) The remote computer is not available on the network

Make sure the remote computer is turned on and connected to the network, and that remote access is enabled.

OK
